EXPERIENCE

Anglepoint

Remote

Software Asset Management Consulting Manager

2018 - 2021

- Automated tasks which saved over 80 hours per week by creating standard operating procedures and macros in VBA
- Analyzed software deployments for bundling relationships and validated deployments to accurately report environment details
- Created cost-benefit analyses for products licensed under multiple metrics and recommended options based on the client's needs
- Planned and established baselines for software maintenance renewals and determined license usage for various license metrics
- Supported the creation of data collection methodologies, software management plans, and enterprise license agreements

KPMG

Houston, TX

Contracts Advisory Associate

2016 - 2018

- Conducted license audits of distributors and software licensees to validate compliance of license agreements on behalf of clients
- Instructed a data analytics training session on the core functions of Alteryx and designing repeatable workflows
- Performed all stages of reviews including scoping, kick-off, planning, data collection, analysis, testing, vetting, and reporting
- Researched software licensing metrics, interpreted license agreements and applied knowledge to multiple IT environments

Louisiana State University

Baton Rouge, LA

Management Consulting Graduate Assistant

2015 - 2016

- Led a team of consultants in a project to determine the economic feasibility of outsourcing a product to China and 3D Printing
- Handled administrative tasks including interacting with a client and students in China and managing the scope of the assignment

Turner Industries Group

Baton Rouge, LA

Business Systems Analyst

2015 - 2016

- Created reports and forms for Marketing, Personnel, Internal Audit, and Project Controls and identified issues in reporting data
- Designed workflows and prepared a change approach for the United Way campaign and the Microsoft CRM deployment
